bBox is a professional mp3 player dedicated to stand-alone interactive sound installations.

bBox

25W+25W MP3 REPEATER

It very advantageously replaces a CD reader or audio Tape with their amplifier. Highly reliable, without any mechanical component, this system can diffuse stereo hi-fi music or messages, 24 hours a day, 7 days a week. bBox can be started simply by closing a contact, it is programmable via its buttons, and for more complex applications it also includes a communication port (RS-232/485).

It stores messages & sounds on a standard removable SD/MMC memory cards, easy to replace and as easy as a Floppy Disk to copy. In accordance with compression rate and memory card capacity, average messages total duration may be up to 64 hours (voice

quality and 1 GB memory card), but a 32MB memory card may already store up to 30 min. of Hi-Fi stereo quality (128kb/s). Over 200 messages may be reachable.

The bBox player/repeater includes a 2X25W stereo amplifier which help multipoint sound sources, one single device, one single power source. Moreover, the screw connectors allow fast cabling and easy installation. 1 or 2 speakers, a power source, and 1 bBox, you don't need more to add sounds to any areas, even for an information desk, shop window, CityTour bus/coach/train, touristic areas, indication tools, ...
